Reasons for Allowance

The following is an examiner's statement of reasons for allowance: applicant's amendments to the claims are deemed to distinguish the claims from the prior art of record. First, it is noted that the previous double patenting rejection has been obviated in view of the abandonment of US Serial 10/029,889. The prior art fails to disclose the particular ablation system including a plurality of ultrasonic ablation elements each emitting focused ultrasound, and a control system programmed to automatically change the frequency of the ablating elements from a first frequency for a first plurality of time periods and to ablate the same tissue at a second predetermined frequency different than the first for a second plurality of time periods. While Sherman et al teaches that the frequency of the ultrasonic energy may be changed during the treatment of a particular tissue, any change in frequency is randomly changed based on measured tissue characteristics. That is, there is no "predetermined" second frequency since the Sherman et al device searches for an optimum frequency and, when found, applies that frequency to tissue.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael Peffley whose telephone number is (703) 308-4305. The examiner can normally be reached on Mon-Fri from 6am-3pm.

Art Unit: 3739

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Linda Dvorak can be reached on (703) 308-0994. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
